

HYDROWATER NATURE CYCLONE

Water is our most indispensable natural resource. Without it, your body couldn't function properly. On this basis, it is important not only to take care of what we eat, but also what we drink.

At Lufthous® we are committed to innovation. Therefore, we want to offer you the opportunity to enjoy Hydrowater Nature Cyclone in your own home. This modern equipment enriches water with hydrogen, giving it beneficial properties for the body.

It is important to bear in mind that our body wears out and exhausts itself due to oxidation; tiredness, a bad diet, the consumption of tobacco or alcohol... all these factors, among others, generate an excess of free radicals in the organism. With hydrogenated water we will be able to fight them and reduce the level of oxidation.

Hydrowater Nature Cyclone is more than just a water hydrogenator. This instrument replicates the same procedure that air performs in nature.

Hydrogenated water of this equipment is very appropriate for daily consumption and even for your pets.

Hydrowater Nature Cyclone is designed to provide you with an unlimited supply of hydrogenated water. Take care of the well-being of you and yours.

You want it and at Lufthous® we make it possible.

CHARACTERISTICS OF HYDROGENATED WATER

As we have already mentioned, hydrogen is an important natural antioxidant. By applying it to the water we drink, we are helping promote our welfare. In addition to its antioxidant function, hydrogenated water also contributes to:

- * Regulating the pH of our body,
- * Improving recovery after hard work
- * Promoting elimination of free radicals.

TECHNICAL SPECIFICATIONS

- **Model:** Hydrowater Nature Cyclone.
- **Net weight:** 2.5 kg.
- **Power:** 15W.
- **Dissolved H2:** Between 800 and 1100 ppb depending on quantity and quality of the water.
- **ORP:** Up to -450 mV depending on water quality.
- **Capacity of the pitcher:** 2.000 ml (usable capacity).
- **Recommended type of water:** Low mineralisation waters, purified waters, osmotic waters (RO), 20 ppm-300ppm.
- **Max. hardness:** 20H°
- **Acoustic function:** Beeps to signal the end of cycle.
- **LED lighting**
- **Magnetic cyclone:** Cyclone for 10 minutes.
- **Control Panel:** Touch control
- **Screen:** Indicates cycle times.
- **Ambient humidity:** +25° C, humidity 80%.
- **Ambient operating temperature:** 5 - 45° C.
- **Temperature of the water to be treated:** 5 - 38° C.
- **Product measurements** 210 x 240 x 410 mm.
- **Pitcher size:** 180 x 235 x 305 mm.
- **Box size:** 302 x 356 x 355 mm.

CONTENT OF THE SET

- X1 Pitcher
- X1 Cover
- X1 Transformer
- X1 Equipment base Hydrowater Nature Cyclone
- x1 User Manual

LUFTHOUS® QUALITY

After years of work and effort, we have proven to be a benchmark of innovation, commitment and quality.

Each of our devices is the result of numerous investigations and conscientious field work. Only then, we can guarantee that you enjoy fabulous benefits and advantages in your own home that we could only dream of before.

All this wouldn't be possible without your trust. Thanks to you, our project grows and moves in the right direction.

What is our main objective? Your satisfaction. For this reason we thank you once again for the support and trust you have placed in each of our projects.

To a future together. To a better future.
